

Georgia

Physiotherapist
QLD

Georgia is a physiotherapist with international hospital and community experience who is passionate about neurological rehab, falls prevention and helping people move with confidence again.

Georgia is a physiotherapist with a strong background in neurological, respiratory and musculoskeletal rehabilitation across both hospital and community settings. She completed a Bachelor of Science in Sport and Exercise Science in 2018 before going on to earn her Master of Physiotherapy in 2022.

Georgia began her career in the UK, working for an NHS acute hospital where she gained broad experience across Older People's Medicine, respiratory care including ICU, musculoskeletal outpatients, neurosciences and paediatrics. This diverse foundation shaped her holistic and adaptable approach to care.

Since moving to Australia, Georgia has spent two years working across clinic and community-based environments, supporting clients with musculoskeletal, neurological and persistent pain conditions. She is passionate about helping people regain mobility, independence and confidence in their daily lives.
