

Brooke

**Regional Clinical Supervisor
Occupational Therapist
QLD**

Brooke is a caring OT who's passionate about empowering people of all ages to live more independently and confidently every day.

Brooke is an Occupational Therapist who graduated with a Bachelor of Occupational Therapy (Honours) from the University of the Sunshine Coast. She has experience working across both public and private sectors, including Queensland Health hospitals and community-based private practice.

Brooke has supported clients across a wide range of ages and funding types, helping them build independence and confidence in daily life. She has a special interest in paediatrics and geriatrics—supporting children to develop age-related skills and assisting older adults to remain safe and comfortable in their own homes.

Her key skills include equipment prescription, minor home modifications, paediatric intervention, and mental health support. Brooke's commitment to professional growth is reflected in her extensive ongoing training across areas such as wheelchair and seating assessments, falls prevention, and cognitive evaluation.
