

Lauren

Team Manager
Speech Pathologist
QLD

Lauren is a Speech Pathologist with strong interests in neurological rehabilitation and dysphagia, from adults with progressive conditions and young children with language delays.

Lauren is a dedicated Speech Pathologist with a strong passion for supporting adults with progressive neurological conditions, brain injury rehabilitation and dysphagia management. She brings extensive training across LSVT LOUD, SPEAK OUT!®, cervical auscultation and paediatric language programs, providing evidence-based, compassionate care that empowers clients to communicate and swallow safely in their everyday environments. Lauren is equally passionate about early language development in young children and values meaningful, functional therapy delivered within the comfort of each client's own setting.
