

Martin

**Occupational Therapist
Melbourne**

Martin is an experienced Occupational Therapist with a Bachelor of Occupational Therapy. Martin Values continued education and has recently completed the complex home modification course.

Martin is a dedicated Occupational Therapist with expertise across a wide range of paediatric, adult, and complex mental health FCA's.

His skill set includes working with children (0-18 years) on developmental and functional goals, including autism, ADHD, and chromosomal conditions, as well as supporting adults with daily living skills, emotional regulation, and neuro conditions such as Parkinson's and MS.

Martin has a keen interest in home modifications and equipment prescription, including low, mid, and high-cost assistive technologies. He is experienced in completing functional capacity assessments, SIL/ILO, and SDA reports, and is well-versed in sensory processing interventions for both children and adults.
