

Sofia

**Speech Pathologist
Queensland**

Sofia is an experienced Speech Pathologist with a wide variety of skills and experience across all ages in the NDIS and Aged Care sectors.

Sofia has a passion for speech sound delays and literacy/phonological awareness intervention with children as well as swallowing assessments in line with mealtime management plans.

Sofia has worked in both community and clinical settings and developed a love for community allied health along the way. She is phenomenal at building rapport and trust with her clients, regardless age, and thrives on the achieving that feeling of seeing her client achieve their goals.

Sofia is a big believer in personal development and keeping her skills sharp. She has completed courses regarding Gestalt Language Processors and is always looking to further increase her skill set.
